For each question, the maximum number of marks available is shown above.

For questions requiring multiple answers and using the rubric, "Select all that are correct", marks are first awarded as below.

If a question is worth 3 marks and requires 4 correct options to be selected:

Award 3 marks for all 4 correct answers;

Award 2 marks for any 3 correct answers;

Award 1 mark for any 2 correct answers;

Award 0 marks for 1 correct answer.

If a question is worth 2 marks and requires 3 correct options to be selected:

Award 2 marks for all 3 correct answers;

Award 1 mark for any 2 correct answers;

Award 0 marks for 1 correct answer.

If a question is worth 2 marks and requires 2 correct options to be selected:

Award 2 marks for all 2 correct answers;

Award 1 mark for any 1 correct answer;

Award 0 marks for 0 correct answers.

For these questions requiring multiple answers and using the rubric, "Select all that are correct", **negative marking** should **also** be applied, whereby 1 mark is deducted for **each incorrect answer** down to 0 marks (note that the number of marks per question **cannot** be negative).

For example, if a question is worth 2 marks and requires options, A, B and C to be selected: Award 2 marks for A, B and C selected or 1 mark for any two correct answers selected. Award 1 mark for A, B, C and D **or** E selected (2 marks - 1 incorrect = 1 mark) Award 0 marks for A, B, C, D **and** E selected (2 marks - 2 incorrect = 0 marks) Award 0 marks for A, B and E selected or equivalent (1 mark - 1 incorrect = 0 marks).
